Help Your Child Reach Their Full Potential

Ensuring kids with developmental obstacles get the help they need

Everyone Qualifies

We believe every child needs developmental resources and every family needs support. That's why at Building All Children (BAC), everyone qualifies. Regardless of your child's level of development. Regardless of your financial situation.

Building a Foundation for Success

We **ASSESS** development, **RESOURCE** families, and **EMPOWER** you with professional specialists, ongoing support, and specific tools you need to help your child.

Assess: Through in-depth social, emotional, physical, cognitive and academic assessments, we identify where your child falls in terms of developmental milestones. We then develop a customized program based on your child's unique learning style.

Resource: We connect you with appropriate resources such as speech pathologists, occupational therapists, physical therapists, counselors, physicians, academic placement advisors, tutors, resource materials, classes, workshops, support groups and more.

Empower: Throughout the process, we give you the knowledge and support you need to help your child complete their plan successfully.

"If it weren't for BAC, we'd have never found the wonderful therapists and resources we needed to answer our questions and set us on the path to success."

BAC is a gift and their ability to reach children and nurture their strengths has propelled our son to new heights!"

Our Programs

We not only connect you with community resources, we offer caring support through our own programs. Here is a sampling:

Building Readers: This vital program serves children between the ages of 4 and 12 who are struggling with reading skills, comprehension strategies, dyslexia and/or dysgraphia. A reading teacher implements the program through one-on-one, one-hour sessions, twice a week, for up to six months.

"Our income did not allow us to receive free help, and the help we were actively seeking was too expensive for us. Building All Children relieved the pressure and fears of not being able to obtain quality testing and quality guidance for our son!"

"BAC was able to give us a professional and accurate assessment of our child's needs and point us in the direction of the resources she needs."

Play Groups: We meet weekly for developmental activities which involve sensory play, fine motor skills, gross motor skills, social interaction, color identification, numbers, and letters. It's a great support opportunity for parents as well.

Talking Is Teaching: We meet once a month for an hour of hands-on, age-appropriate activities for children, family education on specific early childhood topics, and learning and reading together. Every family leaves with a book so they are encouraged to read during the week.

Moms and Mentors: Once you complete our services, this program meets throughout the year to bring parents and mentors together for ongoing support, learning and encouragement as they continue working with their children's specific learning needs.

**Help your child reach their full potential.

"There was an instant switch in our son's behavior and his teachers noticed an immediate difference in his confidence and success in school."

"Thanks to BAC, I feel that we are now on the right path towards helping my daughter with anxiety, ADHD, and sensory issues."

Our Mission:

To assess, resource, and empower children and their families to build each child's development and individual learning style.

Let us arise and build. So they strengthened their hands for the good work.

—NEHEMIAH 2:18

"BAC gave us a key to unlock who our son is and showed us how to help him and love him. It is because of that, that our little boy is happier, more grounded than ever before, and our home is balanced and joyful."

"I cannot express enough gratitude for the gift of confidence I gained as a parent and am speechless towards the growth my son is achieving! Thank you from the bottom of my heart!"

"BAC made us feel like we weren't walking this journey alone anymore—they gave us full support: emotionally, mentally, and spiritually."

"Thanks to BAC, I now know who to ask for help and what to ask to empower my son's strengths and encourage his good behavior."
